

P495 APPLIED INSTRUCTIONAL FACILITY

MCAS YUMA, ARIZONA

Owner
Naval Facilities
Engineering Command
Southwest (NAVFAC SW)

Client
Design-Build Team:
T.B. Penick & Sons
Jeff Katz Architecture

Services
Surveying

Completion Date
2011

Key Personnel
D. K. Nasland, PLS, PE;
Director of Surveys
John Winn, PLS;
Survey Project Manager

Project Summary

Nasland Engineering conducted ground based topographic survey using conventional survey equipment. The area included streets, commercial type buildings and parking areas. All visible utility facilities were located and included in final base CAD file for design.

Nasland also provided civil engineering design documents including: hydrology and drainage studies, grading, paving and drainage plans, erosion control and site utilities. In addition, Nasland assisted with LEED credit analysis.
